

## *Welcome To Seminole Manor*

Seminole Manor offers a healthcare team to serve the needs of our communities in Southwest Georgia, North Florida and South Alabama with rehabilitative, restorative, nursing and palliative services for your loved ones when needed.

Visiting hours are not restricted. Resident family involvement in the care we provide is welcomed and encouraged. Supervised children visitation is encouraged on a regular basis.

We believe in maintaining the dignity of each resident through a personalized team approach.

Our staff recognizes that each resident has three basic elements in their health and everyday needs: Physical, Social and Spiritual.

Through our "Team Approach" we develop a Resident Care Plan that is individualized based on consultation with the resident, family, physician, nursing staff, social services, activities, dietary, therapies and others as indicated. Our team approach ensures the best in planning for setting the goals of every resident entrusted into our care.

Our professional staff provides continuous care and support to help and encourage the resident to maintain their highest level of independence possible.

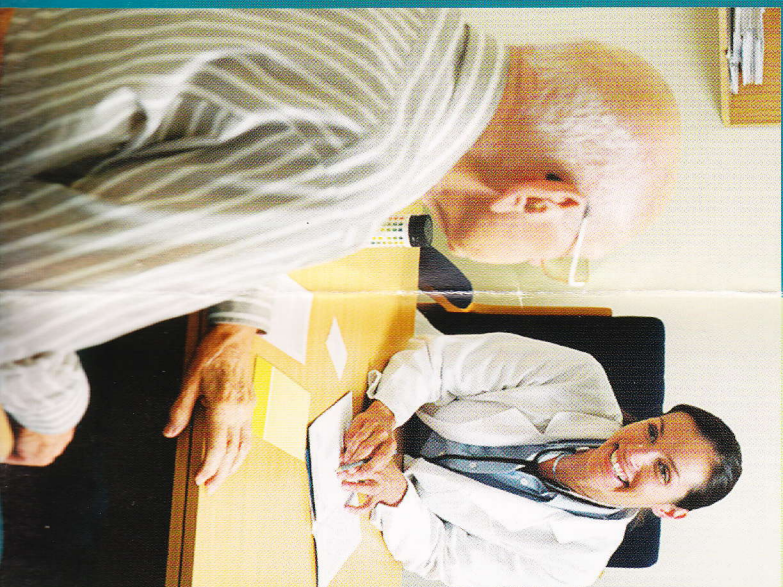

### *Preparing For An Admission*

Plan to bring all of your medical and insurance cards. Be prepared to sign admission and insurance documents.

You are welcome to bring your family sponsor, Power of Attorney or someone else you feel comfortable with to assist you in completing the documentation.

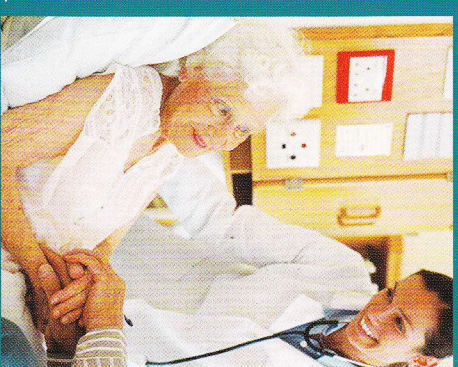

If available, please bring any related documents pertaining to long term care including Advance Directives, specifically:

- Durable Power of Attorney
- Living Will
- Power of Attorney
- Healthcare Surrogate
- DNR

Bring comfortable clothing and your own personal care items. Delicate & woolen clothing are recommended. For your convenience, laundry is available at no cost. We will label all personal items & record them on a resident's inventory sheet.

While we understand this facility will never take the place of family and home, we do want our

residents to feel at home and become part of a healthcare family. Feel free to bring items to personalize a resident's room. A favorite television, pictures, television and/or radio can make the room feel cozy and more homelike.

We take pride in offering the best professional healthcare services, but also in offering a warm and loving atmosphere for our residents to call home.

We invite you to check the Nursing Home Inspection website, which includes information on how to file a complaint. We are Medicare or Medicaid certified, to review past inspections and ratings:

[www.medicare.gov/nhcompare/home.asp](http://www.medicare.gov/nhcompare/home.asp)

but do not limit
